It is a daily activity for fun, opening your business chakras, connecting to your Soul's Guidance and fulfilling on your purpose in the world. It is an exercise in the type of daily fun that incrementally moves you toward a business that is aligned with your soul, aligned with the marketplace and makes money.

-  3 Sets of Cards: Angel "Being" Cards (21), Peacock "Energy" Cards (12), Butterfly "Chakra" Cards (14)
-  Pad of 100 Journal sheets
-  Instruction Booklet with Tally Journal

How will I benefit from playing the game?

-  You will learn to tap into your Soul's Guidance system to take correct actions each day. This gets you out of your head and out of overwhelm and into the aligned, fun actions that move your business forward.
-  It's easier to attract your Ideal Clients because you are clear on who YOU are for the marketplace.
-  You will experience peace of mind and relax into achievement because you are easily doing the "right" things on a daily basis.
-  Doing your inspired daily actions opens a 'Miracle portal' for future fabulous results!
-  Your Business Chakras will balance and energize, causing synchronicities & miracles to start to happen.
-  You will turn on the 3 Laws of Attraction, Activation & Acceleration in your business.

To Play:

Open book to the Journal section on page 1 and fill in your name. Take a deep breath and ask for your Soul's Guidance to answer the questions. Then go to the Community and introduce yourself and state when you will play the game. (You should have received the link to the online community via email.) Many people find they work best with an accountability buddy. Feel free to private message one of the other members and ask one to be your buddy. It is ok to have more than one buddy!

Each Day:

- Take a deep breath, Smile, and say "I open my heart to the highest and best outcome for my business today!" Then shuffle the cards in each deck.
- Choose one card from each deck and place them face up on the top of each deck.
- Take your Journal Card and fill in today's date and Day# you are on the game (Write 1 for the first day). Fill in the blanks for each of the cards you picked.
- Now, say the sentence out loud that your cards made. It is a sentence that your 'brain' cannot complete, you must listen to your Soul's Guidance to complete the ending of the sentence. Write the ending on the blank line. This sentence is your 'mantra' for the day.

Note: The sentence should be positive and uplifting. If something pops in your head and it is not empowering, it is a fear, resistance, or what stops you from living the life of your dreams surfacing. Acknowledge the thought smile, and imagine it bursting into a firework over your head. Now, take another breath and state the sentence again and listen for your Soul's Guidance to complete it. If you don't understand it, that's ok, write it down anyway. (It often becomes clear over the day.)

- Once you have completed your sentence, take your Angel Card and FEEL what it feels like to BE that. If you chose Creativity, feel what it feels like to be creativity. Where do you feel it in your body? Expand that feeling and from that place, take another deep breath and ask your Soul's Guidance what

the key actions are for today. Fill in 1-3 actions for today. Write your actions also on your working calendar. Carry your journal card with you as a reminder. If you are participating in the online community or have an accountability partner, take a picture the card and post or send.

Note: The Key Action items are not 'shoulds' they are 'get-tos'. If what you wrote down feels like a 'should' and not an 'I get to', remove it listen for another action. This game is designed to transform your life and business toward joy and doing the things that are aligned with your purpose. Although actions may show up that scare you a bit, they should feel light and empowering.

- Go to Pages 7-10 to the Tally section and put a tally for each of the cards you drew.
- After each 25 days, go to the Tally page 11 to find your Business Chakra, Being and Energy Themes. The Themes are the one that show up most often. Decoding them helps you find the messages for you to take deeper action, balance and meditate on.
- Continuing Playing for 100 Days. As Miracles start to show up in your business, use the Miracle Tracker on Page 14 to remind yourself how things are shifting by staying in your "Soul's Guidance Zone"!

Taking the Game to the Next Level:

- After the 100 days, you can look at your themes and pull those cards out of the decks and only play with those cards. You will get very focused results from this daily practice. The more you play the game, the faster you will see your business grow and be profitable.

If there is a tie, ask your Soul’s Guidance which one to pick. You can have 1 or 2 in each section. Then ask your Soul’s Guidance for the Purpose and Key Actions for the next 25 days based on those cards. Next go to the Butterfly tally page and see which Chakra section has the most tallies and write that next to Chakra and do the same for the total sections of the Angel and Peacock cards. The discoveries you get from this are explained in the e-book. Find it and decoding demos at 100daysofmiracles.com.

FAQs

What time should I play the game?

The best time is first thing in the morning, or last thing in the evening, but anytime will do! You can't do it wrong.

How often can I play the game?

Play at least once a day. You can play 3-4 times each day for increased clarity and speed in manifestation and miracles.

What if I draw the same card over and over?

These may be "Themes" or areas that need development or balancing. Use the Tally sheets to locate these areas.

What if I can't think of anything to end the sentence or action steps?

No worries, stop thinking and start listening. Your intuition and Soul's Guidance will fill in the blank for you. Practice meditation, or listen to your breathing and ask again.

I forgot to do it for a couple of days. Is that a problem?

It's ok! Everything happens at the perfect speed. That's true timing. You can speed it up by adding another draw during the days, or just pick up where you left off.

The words that popped in my head don't make any sense to me. What does that mean?

Sometimes our Soul's Guidance speaks to us in pictures or metaphors. Write down (or draw a picture) what you see or hear, and often it will make sense later in the day, or after dreaming at night.

I didn't do the Key Actions for the Day yesterday. Should I do them today?

Ask for guidance today. Sometimes you will, sometimes you won't. Work on what you are to do today. Let go of what you did not do yesterday.

Miracle Tracker

While you play the game, you will start to notice things shifting in you and your business. Synchronicities might happen, the actions you took produced awesome results, a client calls unexpectedly and hires you, you get asked to speak at a great conference and on and on! Everything that happens while you are playing the game you can claim in your Miracle Tracker!
